

WE'RE ON A MISSION.

No one should die from breast cancer. We fund science to find the cures and empower community-based programming providing critical breast cancer services for medically underserved women in our communities.

- Peconic Bay Medical Center
- Project Renewal
- St. John's Riverside Hospital
- Staten Island University Hospital
- Woodhull Medical and Mental Health Center/HHC

THE NEW YORK METASTATIC BREAST CANCER CONFERENCE

Recognizing the distinct experience and needs of the metastatic breast cancer community, Komen NYC organizes an annual conference bringing patients, providers, and researchers together to discuss scientific breakthroughs, clinical trials, integrative medicine, and disease recurrence and progression. The conference agenda features leading researchers, clinicians, and international experts providing attendees the opportunity to learn about emerging treatment options, improve quality of life, and promote fellowship and wellbeing. This conference is free of charge to patients and caregivers thanks to the generosity of the Komen community and our sponsors.

PATIENT NAVIGATION

Komen NYC is a leader in investing and collaborating with local health organizations to ensure quality breast health education, screening, treatment, and support services are available for all women. The Komen NYC Patient Navigation white paper authoritatively outlines how a more focused approach to patient navigation is needed to reduce high incidences of late-stage breast cancer diagnoses and high mortality rates. Komen's groundbreaking Patient Navigation Initiative is addressing standardization challenges, fractionalization of care, and cultural competency within the healthcare environment and working to develop solutions so providers and advocates can save lives by strengthening and institutionalizing this vital service for all New Yorkers. This project is made possible by the generosity of the Komen community and our sponsors.

YOUR DONATIONS, YOUR IMPACT.

Thanks to you, in one year **over \$750,000 in grants** were awarded to provide people in the greater New York City area with life-saving services.
